

MSX250 A-Series Specification Sheet

These versatile benchtop sectioning machines offer both linear and radial feed configurations in efficient benchtop models.

Supports up to 12 in. (300 mm) blade @ 5 HP with integrated electronic braking system

Sealed spindle design for optimal speed, precise sections, and trouble-free operation

Easily accessible sealed electronic enclosure

Radial arm with manual locking feature for table sectioning

Channeled coolant return for high flow rates and minimal debris build-up

Convenient easy-to-operate control panel

Automatic pulse feed rate with load control maximizes sectioning efficiency without burning samples

MSX250A1

13.8 in. (350 mm) x 9.8 in. (250 mm) T-slotted table
